PROFILE

UNIFIBER
Multisales Corporation

We don't just produce quality packaging; we provide you the best means to further your business.

Established in 2011 under our former name, Hexapack Corporation, we in Unifiber Multisales Corporation (UFMC) believe in providing our clients only the best logistic packaging products.

Because we understand that every customer has their own unique and exacting requirements, we tailor-fit all our designs to match, and even surpass, their most stringent needs.

We also understand our impact on the environment and how every little thing counts. We therefore seek to provide, not only our customers, but also our partners and employees, a sustainable means for continuous growth through the use of our innovative, eco-friendly, and world class solutions.

Tailor-fit packaging with nature in mind, we are Unifiber.

PROFILE

Our Mission

UFMC is dedicated to delivering world-class logistics packaging solutions that surpass our customers' expectations. We achieve this by continuously aligning and enhancing our technology, techniques, procedures, and workforce to meet the highest global quality standards.

We foster these capabilities in an environment that respects the fundamental rights of all individuals, promotes an excellent quality of work life, and values innovation, teamwork, and work excellence.

Our Vision

It is also our vision is to become the leading provider of logistics packaging solutions in the Philippines, chosen as the preferred partner by our customers. We will achieve sustainable business growth through a relentless focus on consistently delivering excellent processes, products, and services, powered by a world-class workforce and talent.

We are lastly committed to creating a better life for our employees, business partners, industry, and society, and we will strive to achieve this through responsible and sustainable business practices, technological innovation, and a customer-centric approach. Our success will be measured not only by our financial performance but also by our positive impact on the environment and the communities we serve.

Quality Policy

As a company committed to providing high-quality paper logistics packaging products, UFMC strives to meet and exceed customer expectations. We are also committed to maintaining the highest standards of quality throughout our operations. From sourcing raw materials to delivering finished products, our quality policy reflects this commitment and we aim to achieve the following:

1. Continuously improve our Quality Management System to ensure the highest level of customer satisfaction and meet or exceed all relevant requirements and regulations.
2. Provide simple, superior, and sustainable paper logistics packaging products that meet or exceed our customers' expectations and requirements.
3. Ensure that all employees understand their roles and responsibilities in maintaining our high-quality standards and receive adequate training to perform their duties efficiently and effectively.
4. Monitor and measure our processes' effectiveness and efficiency to identify areas for improvement and take corrective action as necessary.
5. Maintain open communication with our customers, suppliers, and other stakeholders to understand their needs and expectations and continuously improve our products and services.

UFMC is committed to achieving these quality policy and objectives, providing the best products and services.

SOLUTIONS OVERVIEW

We are proud to present our packaging solutions...

Inspired by and designed with sustainability in mind, Unifiber is the Philippine's premiere paper logistics packaging manufacturing facility. Armed with innovative machinery and backed by some of the strongest players in the industry, we aim to challenge the ever changing market demands head on.

1. Molded Paper Pulp
2. Corner Posts
3. Slip Sheets
4. CP Pasteboards
5. UFMC Paper Pallets
6. Separator Sheets (Layer Pads)
7. Egg Tray
8. Egg Carton/s
9. Paper Rolls
10. Baling Wires

PACKAGING SOLUTIONS

Molded Paper Pulp

Manufactured in the Philippines using locally sourced paper pulp, Unifiber's Molded Paper Pulp are created by subjecting said pulp to extreme pressure and heat.

This, in conjunction with our customized mold designs, create a complex pattern that envelope our client's products, providing an exacting fit that acts as a cushion from external forces.

Unifiber: sustainable protection in mind.

Dimensions

- Length : Up to 1500 mm
- Width : Up to 750 mm
- Depth : Up to 140 mm
- Thickness : Up to 3 mm

PACKAGING SOLUTIONS

Corner Posts

Also known as “Edge Protectors”, “Corner Supports”, and “Corner Angles”, Unifiber’s Corner Posts are widely used as, and in, protective packaging.

As the name suggests, these structures, which come in a variety of profiles, serve as an edge protective medium in conjunction to other packaging items such as boxes, crates, and pallets.

Dimensions (L-Profile)

- Length : Up to 3 m
- Width 1 : Up to 80 mm
- Width 2 : Up to 80 mm
- Thickness : Up to 8 mm

Dimensions (Flat-Profile)

- Length : Up to 3 m
- Width : Up to 185 mm
- Thickness : Up to 8 mm

Customization Options

- Wax Coating
- Flexographic Printing

PACKAGING SOLUTIONS

Slip Sheets

Every customer has their own unique preference when it comes to transporting their products - this is why we at Unifiber chose to extend our list of services by providing our very own signature Slip Sheets.

Used as a pallet replacement, Slip Sheets are made using paper with high tensile strength to accommodate for its load bearing capabilities. This, combined with its dedicated pull tabs, allow the product to be gripped using special forklift attachments thus allowing for a more efficient method of transporting goods.

Dimensions

Length : Up to 1.45 m

Width : Up to 1.45 m

Entry Type & Capacity

- 2 or 4-way Pulling Direction
- Up to 1,500 kg weight

Customization

- Scoring
- Die-cutting

PACKAGING SOLUTIONS

CP PASTEBOARDS

Used in a variety of products such as, but not limited to, cake boards, record books, and receipt books.. CP PASTEBOARDS are mainly used as a supplementary layer for additional stiffness and thickness.

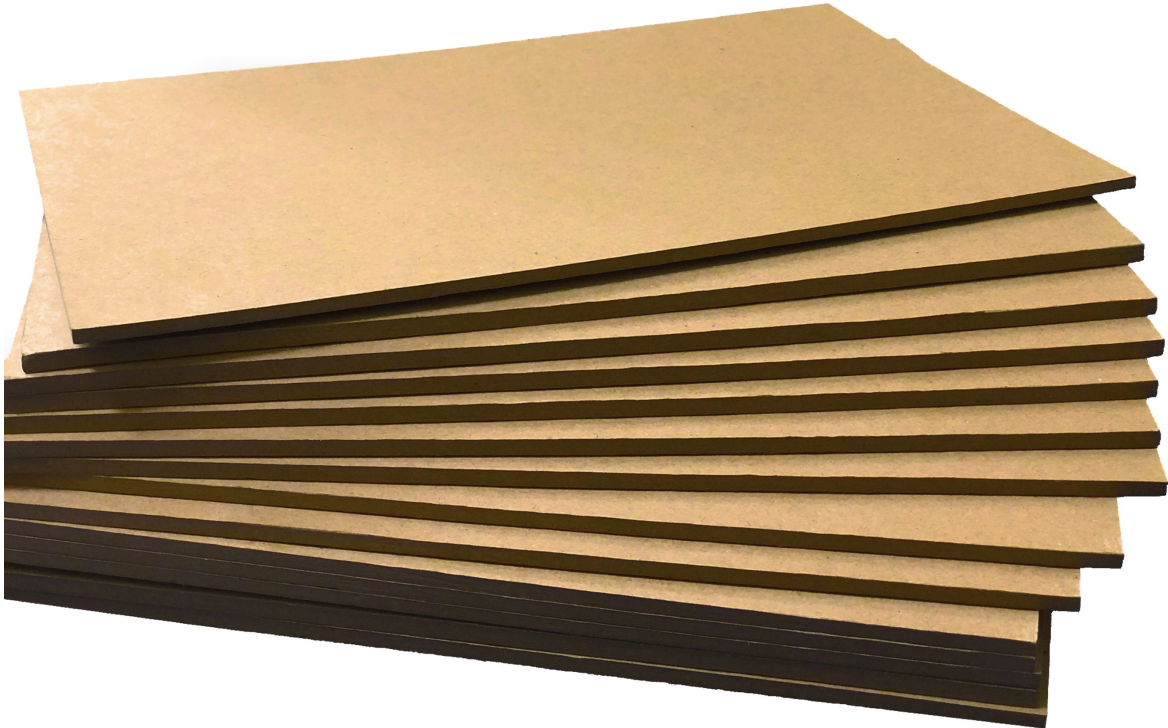

Characterized by their brownish and cleaner surface, our premium CP PASTEBOARDS offer superior stiffness for users that require a harder substrate than the standard, gray Chipboards you see in the market

Stiffness without the bulk.

Thickness Guide

No. 50	-	1.00 mm
No. 40	-	1.35 mm
No. 35	-	1.50 mm
No. 2mm	-	2.00 mm
No. 25	-	2.25 mm
No. 20	-	2.75 mm

*tolerance of (+/- 0.2mm)

PACKAGING SOLUTIONS

UFMC Paper Pallets®

Made from 100% recycled materials, UFMC's Paper Pallets® are lightweight yet durable; engineered to withstand up to 1500 kg of dynamic weight.

Cost-efficient, customizable, and sustainably made, our Paper Pallets encompasses our company mantra: Simplicity. Superiority. Sustainability.

Dimensions

- Flat Bed

PACKAGING SOLUTIONS

Separator Sheets (Layer Pads)

Like Corner Posts, Separator Sheets are known by myriad of names such as "Layer Pads", "Tier Pads", and "Tier Sheets". As its various names suggest, these items are usually laminated papers used as divisions between layers of stacked items.

Its purpose varies widely: from merely providing a means to make item counting easier through layering, to supplementing pallet stabilization by placing it on top of layers with uneven loading surfaces, Separator Sheets are one of the industries' most unclaimed yet critical products.

Dimensions

Length : Up to 2 m
Width : Up to 1.5 m
Thickness : Up to 5 mm

Customization Options

- Flexographic Printing
